

TURTLE ISLAND

Accommodations

During your stay at this exotic island retreat, your home will be one of only 14 private villas, or “Bures”—traditional, authentic, eco-friendly, two-room cottages built by Fijian craftsmen. Spacious, romantic, and wonderfully relaxing.

Grand Bure

Every Grand Bure is located on the sandy shores of the famous Blue Lagoon. They each have a king-size bed, extensive dressing area, writing desk, indoor and outdoor walk-in shower, and a veranda with a queen-size day bed for napping in the sun-flecked shade of the palms overhead. Each Bure is slightly different in design and layout, reflecting the uniqueness of the setting.

Vonu Point

Vonu Point is Turtle’s premium Bure—a traditional, two-room thatched cottage crafted by Fijian artisans. Elevated at the north end of the spectacular Blue Lagoon beachfront, it enjoys total privacy and breathtaking panoramic views of the lagoon and neighboring Yasawa Islands. Your nearest neighbor is located over 500 yards away on the main beach. The ultimate in privacy, exclusivity, romance, and views of one of the most stunning locations on earth, Vonu Point is Turtle’s most popular Bure, and needs to be reserved well in advance to ensure its availability. Enquire with us for pricing and specials.

TURTLE ISLAND

Activities

With 500 acres and pristine private beaches, the landscape and activities on Turtle Island are extraordinarily varied. Smooth, white sands; calm, turquoise waters; rugged, black volcanic cliffs; dense, tropical forests; lush, grassy highlands—it's a paradise on earth. Turtle Island is blessed with powdery white sand beaches. Some are adjacent to living and dining areas, and some are completely isolated, bounded by high cliffs or set within a cove. Your time here is your own. Stroll along your own private beach, wade in the turquoise waters, cruise on a sailboat or experience the abundant sea life by snorkeling or scuba diving with one of our Fijian guides. Couples can reserve their own private beach for the day and enjoy their own exotic, romantic picnic lunch with delicacies such as lobster and champagne – it's your meal to create. Lose your inhibitions. Read a book, sip cocktails, or practice the fine art of doing nothing at all. After all, it's your perfect vacation. FAMILY HOLIDAYS

ON TURTLE ISLAND

Turtle Island is known as one of the world's most romantic island resorts. It is hard to imagine that there could be occasions where this idyllic hideaway could become a perfect family holiday destination, but it's true!

Popular demand from past guests, who enjoyed their time on the island and wanted to share the experience with their families, prompted the introduction of 'Kids Week' in April, June/July and the Christmas Holidays. Kids Week is open to all families, while couples without children are still most welcome.

Fijians love children, and it takes a very short time for newcomers to become lifelong friends.

Parents can relax and enjoy the serenity Turtle Island has to offer, safe in the knowledge that their children are having loads of fun and are constantly under the watchful eye of our dedicated, loving care givers.

Many families that annually return have seen their children grow up with the same nanny. At the farewell Isa Lei song, it is clear just how strong these bonds have become.
